

**BIRMINGHAM BOND**

Birmingham Bond is **your** 3PL provider and bonded warehouse operator, with a heritage of 30+ years within the logistics market.

We offer a secure, efficient and customer focused approach to your logistics with our world class solutions.

Our solutions, your way.

# Who we are

In 2020, our Managing Director decided to collate his 30+ years of industry knowledge to create a streamlined business model; and thus Birmingham Bond was created.

At Birmingham Bond our goal is to provide a safe and secure warehousing space, paired with an efficient customs clearance service, contract packing & processing service and only the best transport solutions, for all of our partners; old and new.

## We're an inland port

An inland or "dry" port is a facility specialised for inter-modal containers. Rather than goods entering the UK, being unloaded, then loaded again- the cargo is simply transferred onto a HGV, ready to make its way to our facility.
